

Chatfield Storage Reallocation Project (CSRP)

The CSRP is a partnership between federal and state entities and eight water providers in the Denver Metro area and northeast Colorado.

The project stakeholders have been working for more than two decades to prepare for this project and want the mitigation work to be done with as little impact on visitors as possible. Project benefits include:

- Increased sustainable water supply for present and future generations
- Enhanced valuable ecological resources such as:
 - Planting of over 100,000 plants, trees, and shrubs
 - Stream restoration and stabilization
 - Extensive erosion and sediment control

Existing recreational amenities and facilities will again be offered upon completion of the project.

- New ADA compliant structures and facilities in relocated areas

- Improved road surfaces; trails replaced in-kind

About 10% of the added water storage is dedicated to the Environmental Pool, increasing the flow of the South Platte River, enhancing the river's health, increasing recreational activities and supporting agricultural operations downstream.

The Adaptive Tree Management Plan will protect visitors and dam operations by removing debris and unhealthy trees from the fluctuation zone while also conserving healthy trees and maintaining important bird and wildlife habitat.

CONSTRUCTION

The project participants have formed the Chatfield Reservoir Mitigation Company, Inc. (CRMCM) to implement the CSRP.

The CRMCM is committed to minimizing the impact to park visitors and has scheduled construction activities for the fall, winter and spring months. Please refer to the reverse side of this handout for 2018 / 2019 construction activities. For the most current updates on construction, please visit our website chatfieldreallocation.org/construction.

Chatfield State Park

While the Corps owns and operates the dam and reservoir, it leases land and the reservoir to Colorado Parks and Wildlife (CPW) to operate Chatfield State Park, Colorado's most visited state park with more than 1.6 million visitors annually.

History

Chatfield Reservoir, built in 1975 by the U.S. Army Corps of Engineers (Corps) as flood control, also provides storage space for multipurpose water including municipal, industrial, agricultural, and recreational uses, as well as maintenance of fisheries and wildlife habitat. Since 1986, the Corps and stakeholders studied the water supply benefits of additional water storage in Chatfield Reservoir and determined that up to 20,600 acre-feet could be reallocated for additional water storage, raising the water level by 12 feet, with no impact to the reservoir's flood control function.

On May 29, 2014, the Corps approved the final Feasibility Report/Environmental Impact Statement for the Chatfield Storage Reallocation Project (CSRP) that allowed the recreation and environmental mitigation efforts to move forward.

Colorado's population is projected to nearly double by 2050, according to Colorado's Water Plan. The additional water storage at Chatfield Reservoir will serve as an integral part of storing surface water and reducing dependency on non-renewable groundwater.

FALL 2018 — SPRING 2019 PARK CLOSURES

NORTH BOAT RAMP

OPEN as of March 26, 2019

SWIM BEACH

CLOSED for the 2018 season
Anticipated to reopen May 24, 2019

JAMISON DAY USE AREA

OPEN as of October 1, 2018

CATFISH FLATS DAY USE AREA

CLOSED January 2, 2018
Anticipated to reopen May 24, 2019

FOX RUN DAY USE AREA

CLOSED January 2, 2018
Anticipated to reopen May 24, 2019

KINGFISHER DAY USE AREA

CLOSED October 1, 2018
Anticipated to reopen July 3, 2019

GRAVEL PONDS

CLOSED October 1, 2018
Anticipated to reopen July 3, 2019

SOUTH BOAT RAMP

CLOSED September 4, 2018
Anticipated to reopen June 1, 2019

MARINA (DOCKS)

CLOSED September 15, 2018
Anticipated to reopen June 1, 2019

MARINA (LANDSIDE FACILITIES)

CLOSED September 5, 2018
Anticipated to reopen July 3, 2019

ROXBOROUGH COVE

CLOSED September 15, 2018
Anticipated to reopen July 3, 2019

PLUM CREEK DAY USE AREA

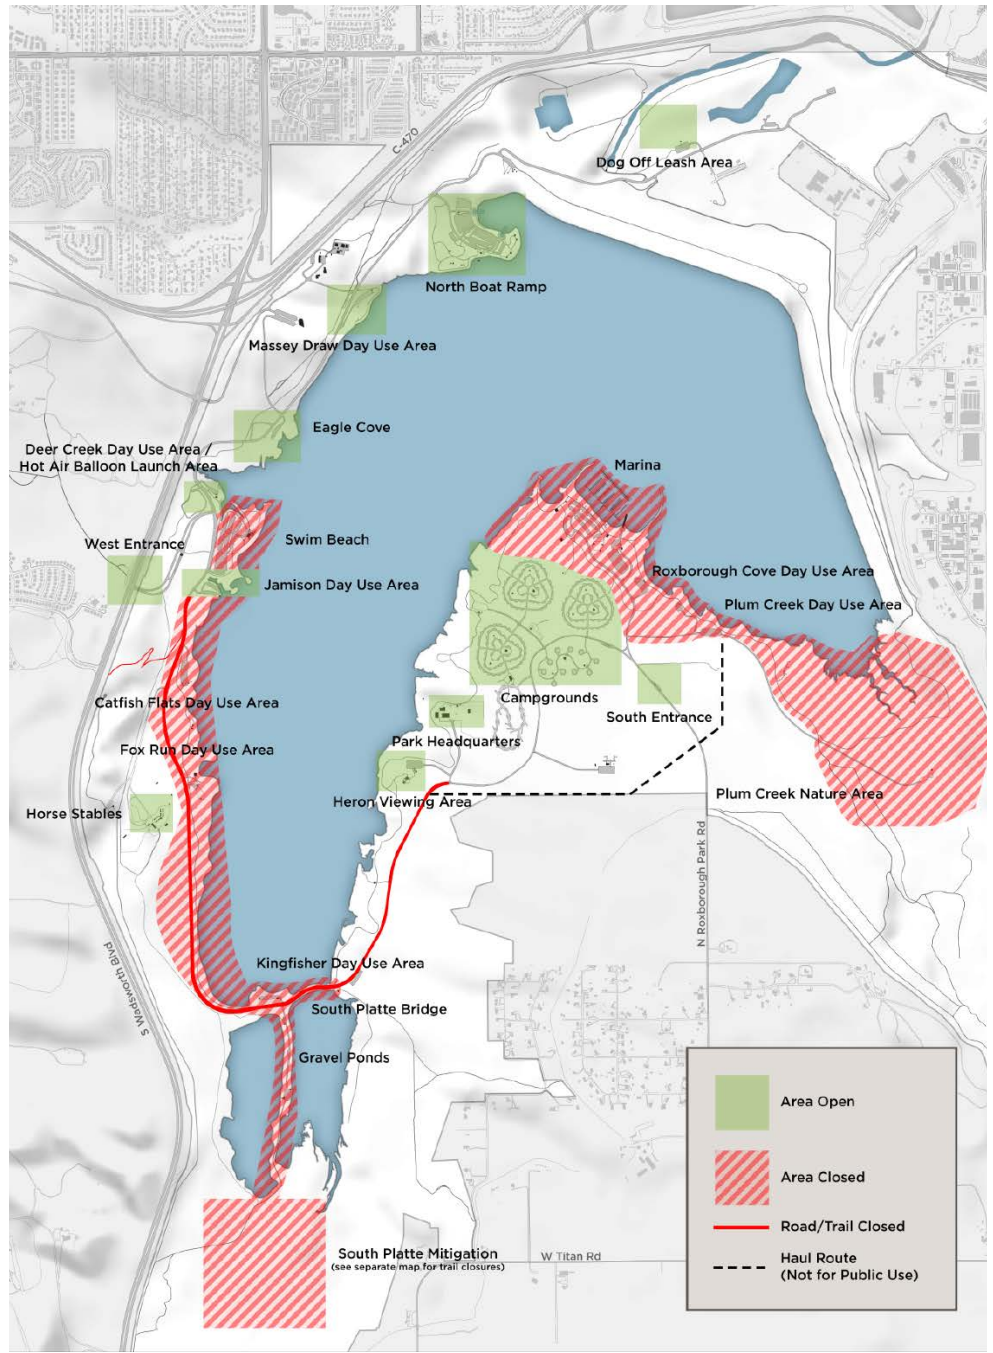

CLOSED August 10, 2018
Anticipated to reopen July 3, 2019

PLUM CREEK NATURE AREA

CLOSED November 13, 2017
Anticipated to reopen May 24, 2019

SOUTH PLATTE MITIGATION

CLOSED as of June 11, 2018
Anticipated to reopen July 3, 2019

FALL 2018 — SPRING 2019 ROAD CLOSURES

PERIMETER ROAD

Jamison to Park Headquarters
CLOSED October 1, 2018
Anticipated to reopen July 3, 2019

PEDESTRIAN AND BIKE TRAILS

Recreation trails from Deer Creek to Jamison anticipated to reopen by May 24th. West side trails from Jamison through South Platte Bridge to Heronry to reopen July 3, 2019.
CLOSED January 2, 2018

FALL 2018 — SPRING 2019 OPEN AMENITIES

DOG OFF LEASH AREA

Access via West Park Entrance only

MASSEY DRAW

Access via West Park Entrance only

EAGLE COVE DAY USE AREA

Access via West Park Entrance only

DEER CREEK / BALLOON LAUNCH

Access via West Park Entrance only

HORSE STABLES

Access via West Park Entrance only

CAMPGROUNDS

Access via South Park Entrance only

MODEL AIRPLANE RUNWAY

Access via South Park Entrance only

HERON VIEWING AREA

Access via South Park Entrance only

PARK HEADQUARTERS & ENTRANCES

Park Headquarters and the West and South Entrances will remain open during normal park hours
